

Celebrate CNY 2025 with our senior volunteers in CT Hub

As we enter the new year, we embrace its qualities of wisdom and adaptability - traits essential for navigating today's uncertainties. Chinese New Year celebrates more than traditions; it honours the profound importance of family bonds and reunions that strengthen our community.

In our fast-paced society, while balancing work and family life presents challenges, it's encouraging to see Singaporeans continuing to prioritize marriage, parenthood, and family connections. These relationships form the bedrock of our society, nurturing our values and supporting our aspirations.

At En Community Services Society (ECSS), we work hard to enhance our support for seniors through innovative programme and initiatives. Our goal remains clear: to empower older adults to age actively and purposefully, maintaining strong connections with both their families and the wider community.
